

ADMIN PORTAL

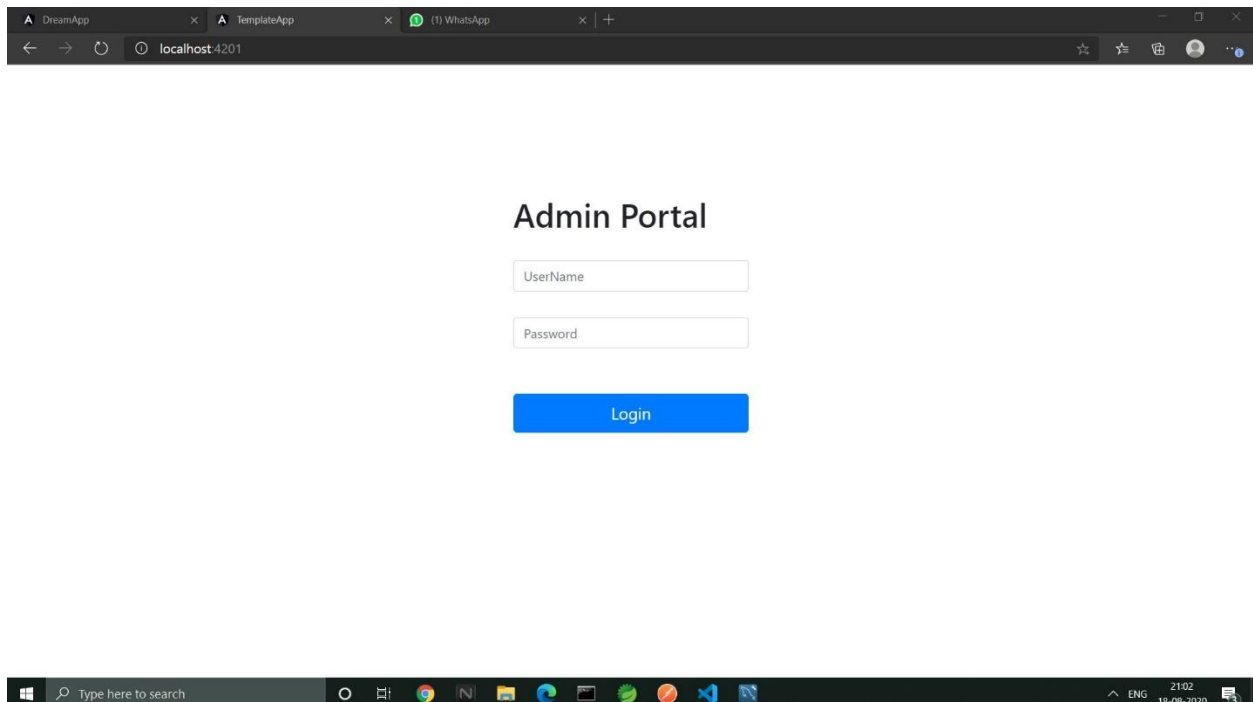

ADMIN PORTAL DESCRIPTION:

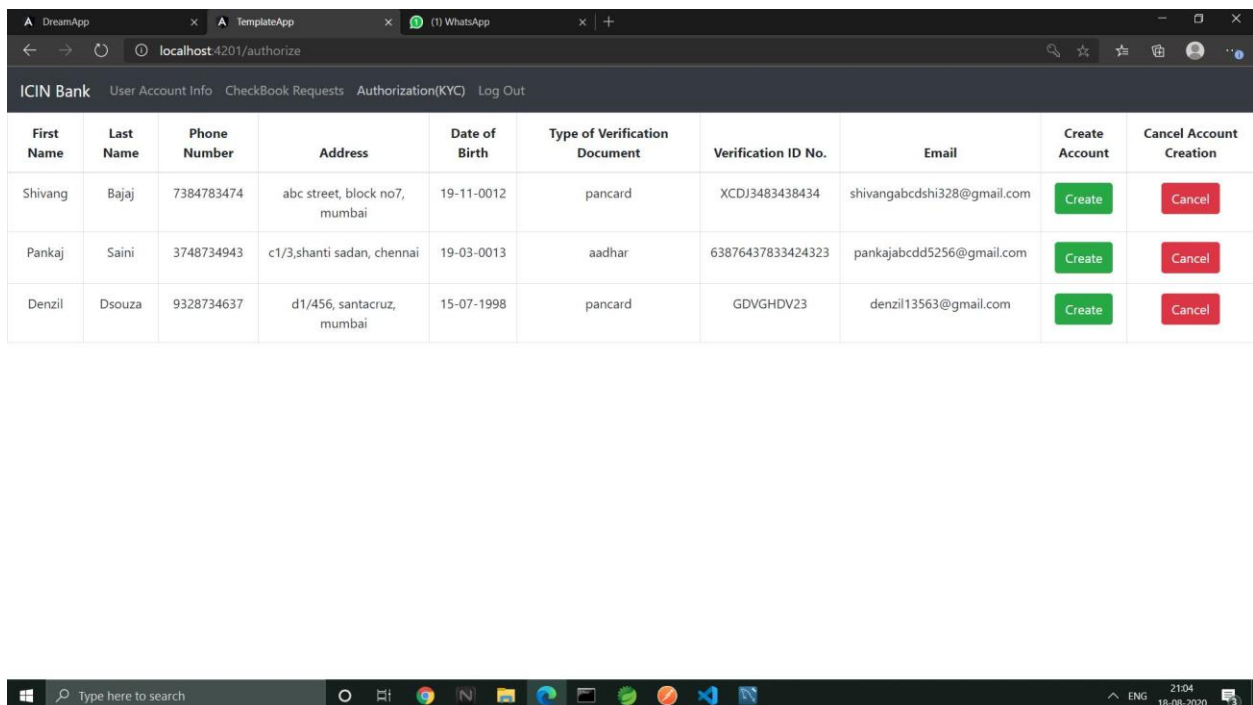

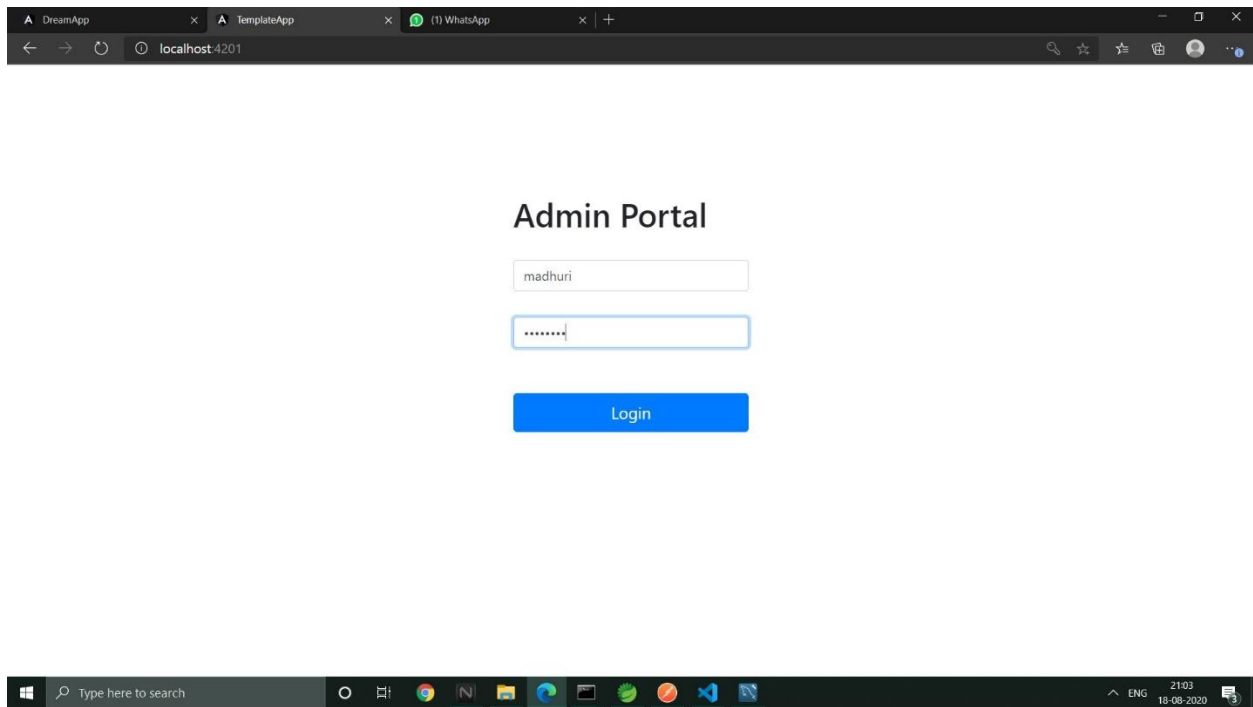

It deals with all the back-end data generation and product information. The role of the admin is to:

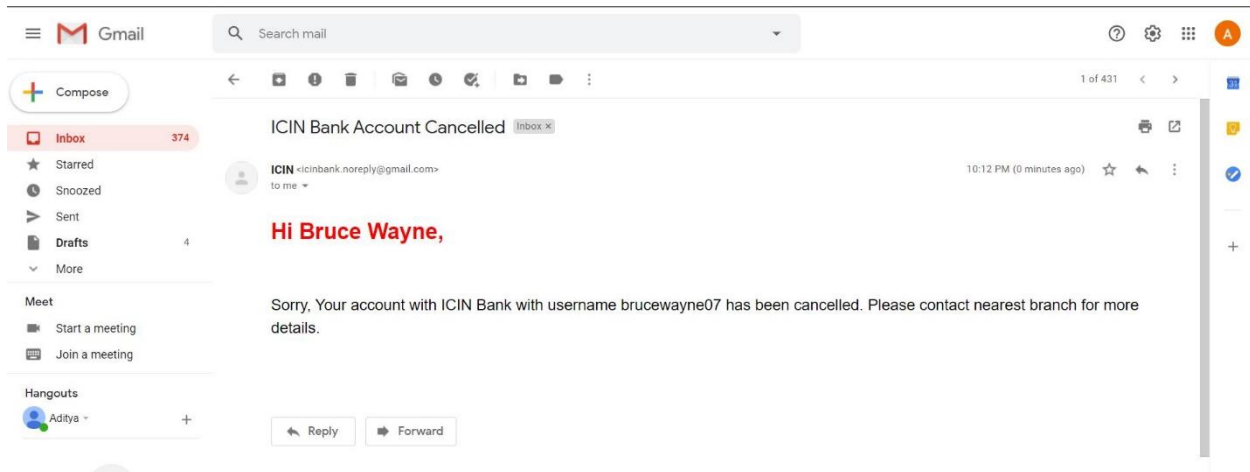

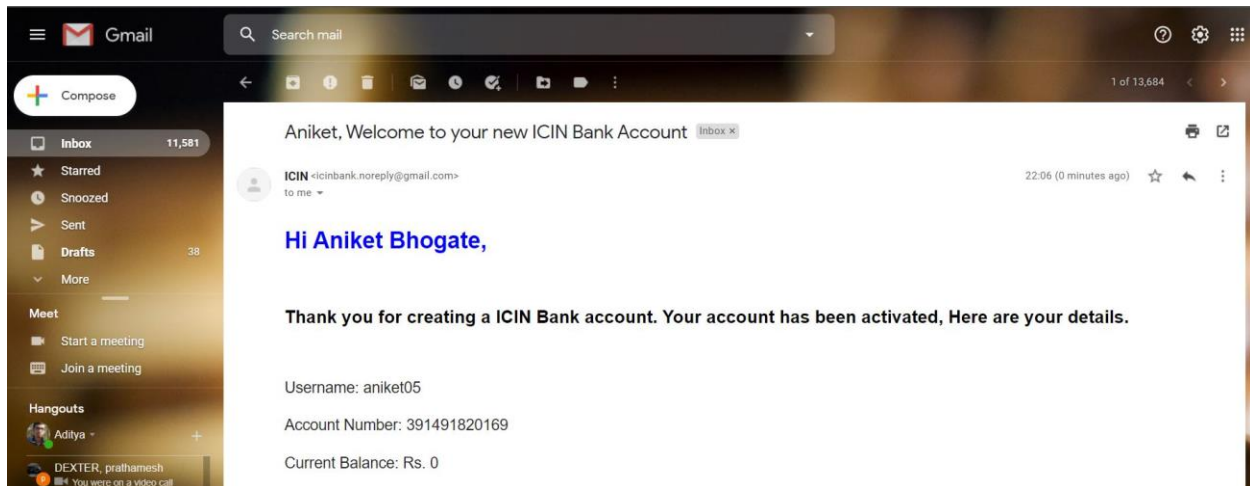

- Authorize the user
- Grant access to user
- Enable/disable the user
- Authorize the Cheque Book requests

User Authorization:

After successful registration on the user portal, the user waits for the confirmation mail from the admin for his/her registration. The admin verifies the data given by the user and upon verification, the status is sent to user's email which is provided by the user at the time of registration. Only upon successful verification, the user's account will get activated, the account number gets generated and he/she can proceed with banking activities. In case of failure, user has to re-register by providing the correct data. The admin also has a login to view the user details and perform actions accordingly.

Access Granting:

The admin must set the transaction rights for the user. The three transaction rights are:

- Credit – User is allowed only to deposit.
- Credit + Debit – User is allowed to deposit and withdraw money.
- Credit + Debit + Transfer – User is granted full transaction rights (i.e) he/she can deposit, withdraw and also perform transfer of money to other account holders.

The screenshot shows a web browser window with the URL `localhost:4201/user-account`. The page title is "ICIN Bank" and the navigation bar includes "User Account Info", "CheckBook Requests", "Authorization(KYC)", and "Log Out". The main content is a table with the following columns: First Name, Last Name, UserName, Primary Account Number, Savings Account Number, Enable Account, Disable Account, Features Granted to the User, and Change Features. The table lists five users: Aditya Bhogate, Sayali Bhogate, Shivang Bajaj, Pankaj Saini, and Denzil Dsouza. Each user has an "Enable" button (green) and a "Disable" button (green). The "Features Granted to the User" column shows different access levels for each user. The "Change Features" column has a dropdown menu and a "Set" button (green).

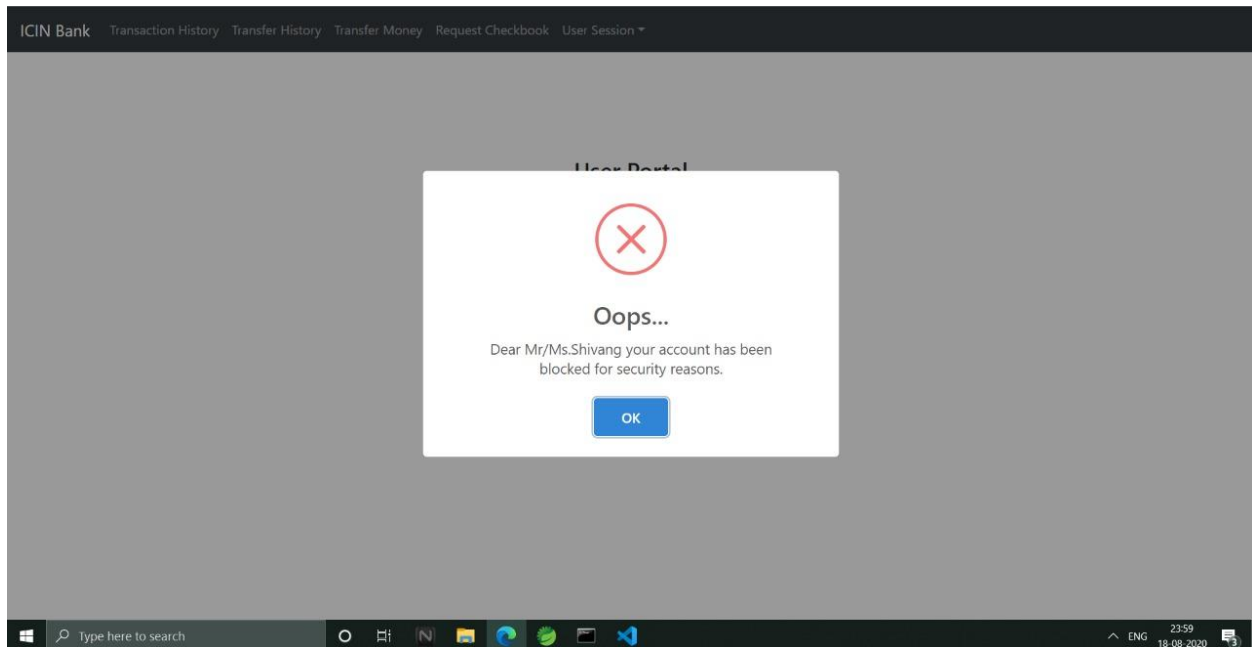

First Name	Last Name	UserName	Primary Account Number	Savings Account Number	Enable Account	Disable Account	Features Granted to the User	Change Features
Aditya	Bhogate	adityabhogate05	391491820126	391491820226	Enable	Disable	Deposit + Withdraw + Transfer Access	Set
Sayali	Bhogate	sayali27	391491820146	391491820246	Enable	Disable	Deposit + Withdraw + Transfer Access	Set
Shivang	Bajaj	shivang05	391491820156	391491820256	Enable	Disable	Deposit + Withdraw Access	Set
Pankaj	Saini	pankaj2526	391491820157	391491820257	Enable	Disable	Deposit Access	Set
Denzil	Dsouza	denzil12345	391491820158	391491820258	Enable	Disable	Deposit + Withdraw + Transfer Access	Set

Enabling/Disabling the User:

The admin can disable(block) the user if he/she is found to be suspicious. If the user is disabled, he/she cannot login and hence is restricted from performing transactions. The admin can also enable the disabled user after verification in person.

This screenshot is identical to the one above, showing the "ICIN Bank" user account management interface. It displays a table with five users and their account details, including buttons to enable or disable accounts and a section to change features.

First Name	Last Name	UserName	Primary Account Number	Savings Account Number	Enable Account	Disable Account	Features Granted to the User	Change Features
Aditya	Bhogate	adityabhogate05	391491820126	391491820226	Enable	Disable	Deposit + Withdraw + Transfer Access	Set
Sayali	Bhogate	sayali27	391491820146	391491820246	Enable	Disable	Deposit + Withdraw + Transfer Access	Set
Shivang	Bajaj	shivang05	391491820156	391491820256	Enable	Disable	Deposit + Withdraw Access	Set
Pankaj	Saini	pankaj2526	391491820157	391491820257	Enable	Disable	Deposit Access	Set
Denzil	Dsouza	denzil12345	391491820158	391491820258	Enable	Disable	Deposit + Withdraw + Transfer Access	Set

Authorizing Cheque Book Requests:

The admin has to authorize the user's request for cheque book issue. Only upon admin's confirmation, cheque books are issued to respective user and the confirmation mail is also sent to the user's email id.

The screenshot shows a web browser window displaying the ICIN Bank Admin Portal. The page title is 'ICIN Bank' and the navigation bar includes links for User Account Info, CheckBook Requests, Authorization(KYC), and Log Out. The main content area displays a table of cheque book requests for authorization. The table has six columns: Request Number, Type of Account, Account Number, Applied Date, Number of Pages, and Confirm Request?. There are four rows of data, each with a 'Confirm Request' button.

Request Number	Type of Account	Account Number	Applied Date	Number of Pages	Confirm Request ?
55	Secondary	391491820246	2020-08-18	75	Confirm Request
65	Secondary	391491820226	2020-08-18	20	Confirm Request
66	Secondary	391491820256	2020-08-18	50	Confirm Request
67	Secondary	391491820257	2020-08-18	20	Confirm Request
